### MATURITY & DEPTH OF CHARACTER

The Dragonfly, in almost every part of the world symbolizes change and change in the perspective of self realization; and the kind of change that has its source in mental and emotional maturity and the understanding of the deeper meaning of life.

### POWER & POISE

The awe inspiring aspect is how the Dragonfly accomplishes its objectives with utmost simplicity, effectiveness with 20 times as much power in each of its wing strokes when compared to other insects. The best part is that the Dragonfly does it with elegance and grace that can be compared to a veteran ballet dancer.

### DEFEAT OF SELF CREATED ILLUSIONS

The Dragonfly exhibits iridescence on both its wings as well as on its body. Iridescence is the property of an object to show itself in different colors depending upon light and angles. The magical property of iridescence is also associated with the discovery of one's own abilities by unmasking the real self and removing one's doubts. This again indirectly means self discovery and removal of inhibitions.

### FOCUS ON LIVING "IN" THE MOMENT

The Dragonfly symbolizes and exemplifies the virtue of living IN the moment and living life to the fullest. By living in the moment you are aware of who you are, where you are, what you are doing, what you want, what you don't and make informed choices on a moment-to-moment basis. This ability lets you live your life without regrets like the great Dragonfly.

### THE OPENING OF ONE'S EYES

The eyes of the Dragonfly are one of the most amazing and awe inspiring sights. Given almost 80% of the insect's brain power is dedicated to its sight and the fact that it can see in all 360 degrees around it, it symbolizes the uninhibited vision of the mind and the ability to see beyond the limitations of the human self; rising from materialism to see the vastness that is really our Universe.
